SUBJECT: Monthly Report, January 1958

5. Plans

a. Branch Industry Orientation and Industry Consultants.

Following a recommendation of Deputy Chief, ERA, inquiries were made concerning industry orientation courses which might be available through U. S. industrial facilities. The Chief, Electronics Division, Business and Defense Services Administration, Department of Commerce, provided the Branch with names of contacts he felt would be able to advise on this type of training assistance and who would also be likely to be of assistance in a consultant status. [REDACTED] has been advised of this, and has been asked to inquire further.

6. Problems

The review of U. S. Army Signal Intelligence Agency contributions to the Soviet Bloc NIS Program continues to be a problem. The contributions are not received until the deadline has passed, and they have characteristically required excessive alterations in content. The allowable time for review and correction does not permit the thorough research and writing which is required to make the improvements satisfactory or sufficient.

7. Recommendations

The recommendation that ORR/D/I/Electrical Equipment Branch be given the responsibility for preparing these NIS' is submitted.

8. Other Information
